weddings 2015

Weddings are magical.

There is no other day like it in your life.  
I have never been to any two that are the same.

They shape a new chapter in your story.

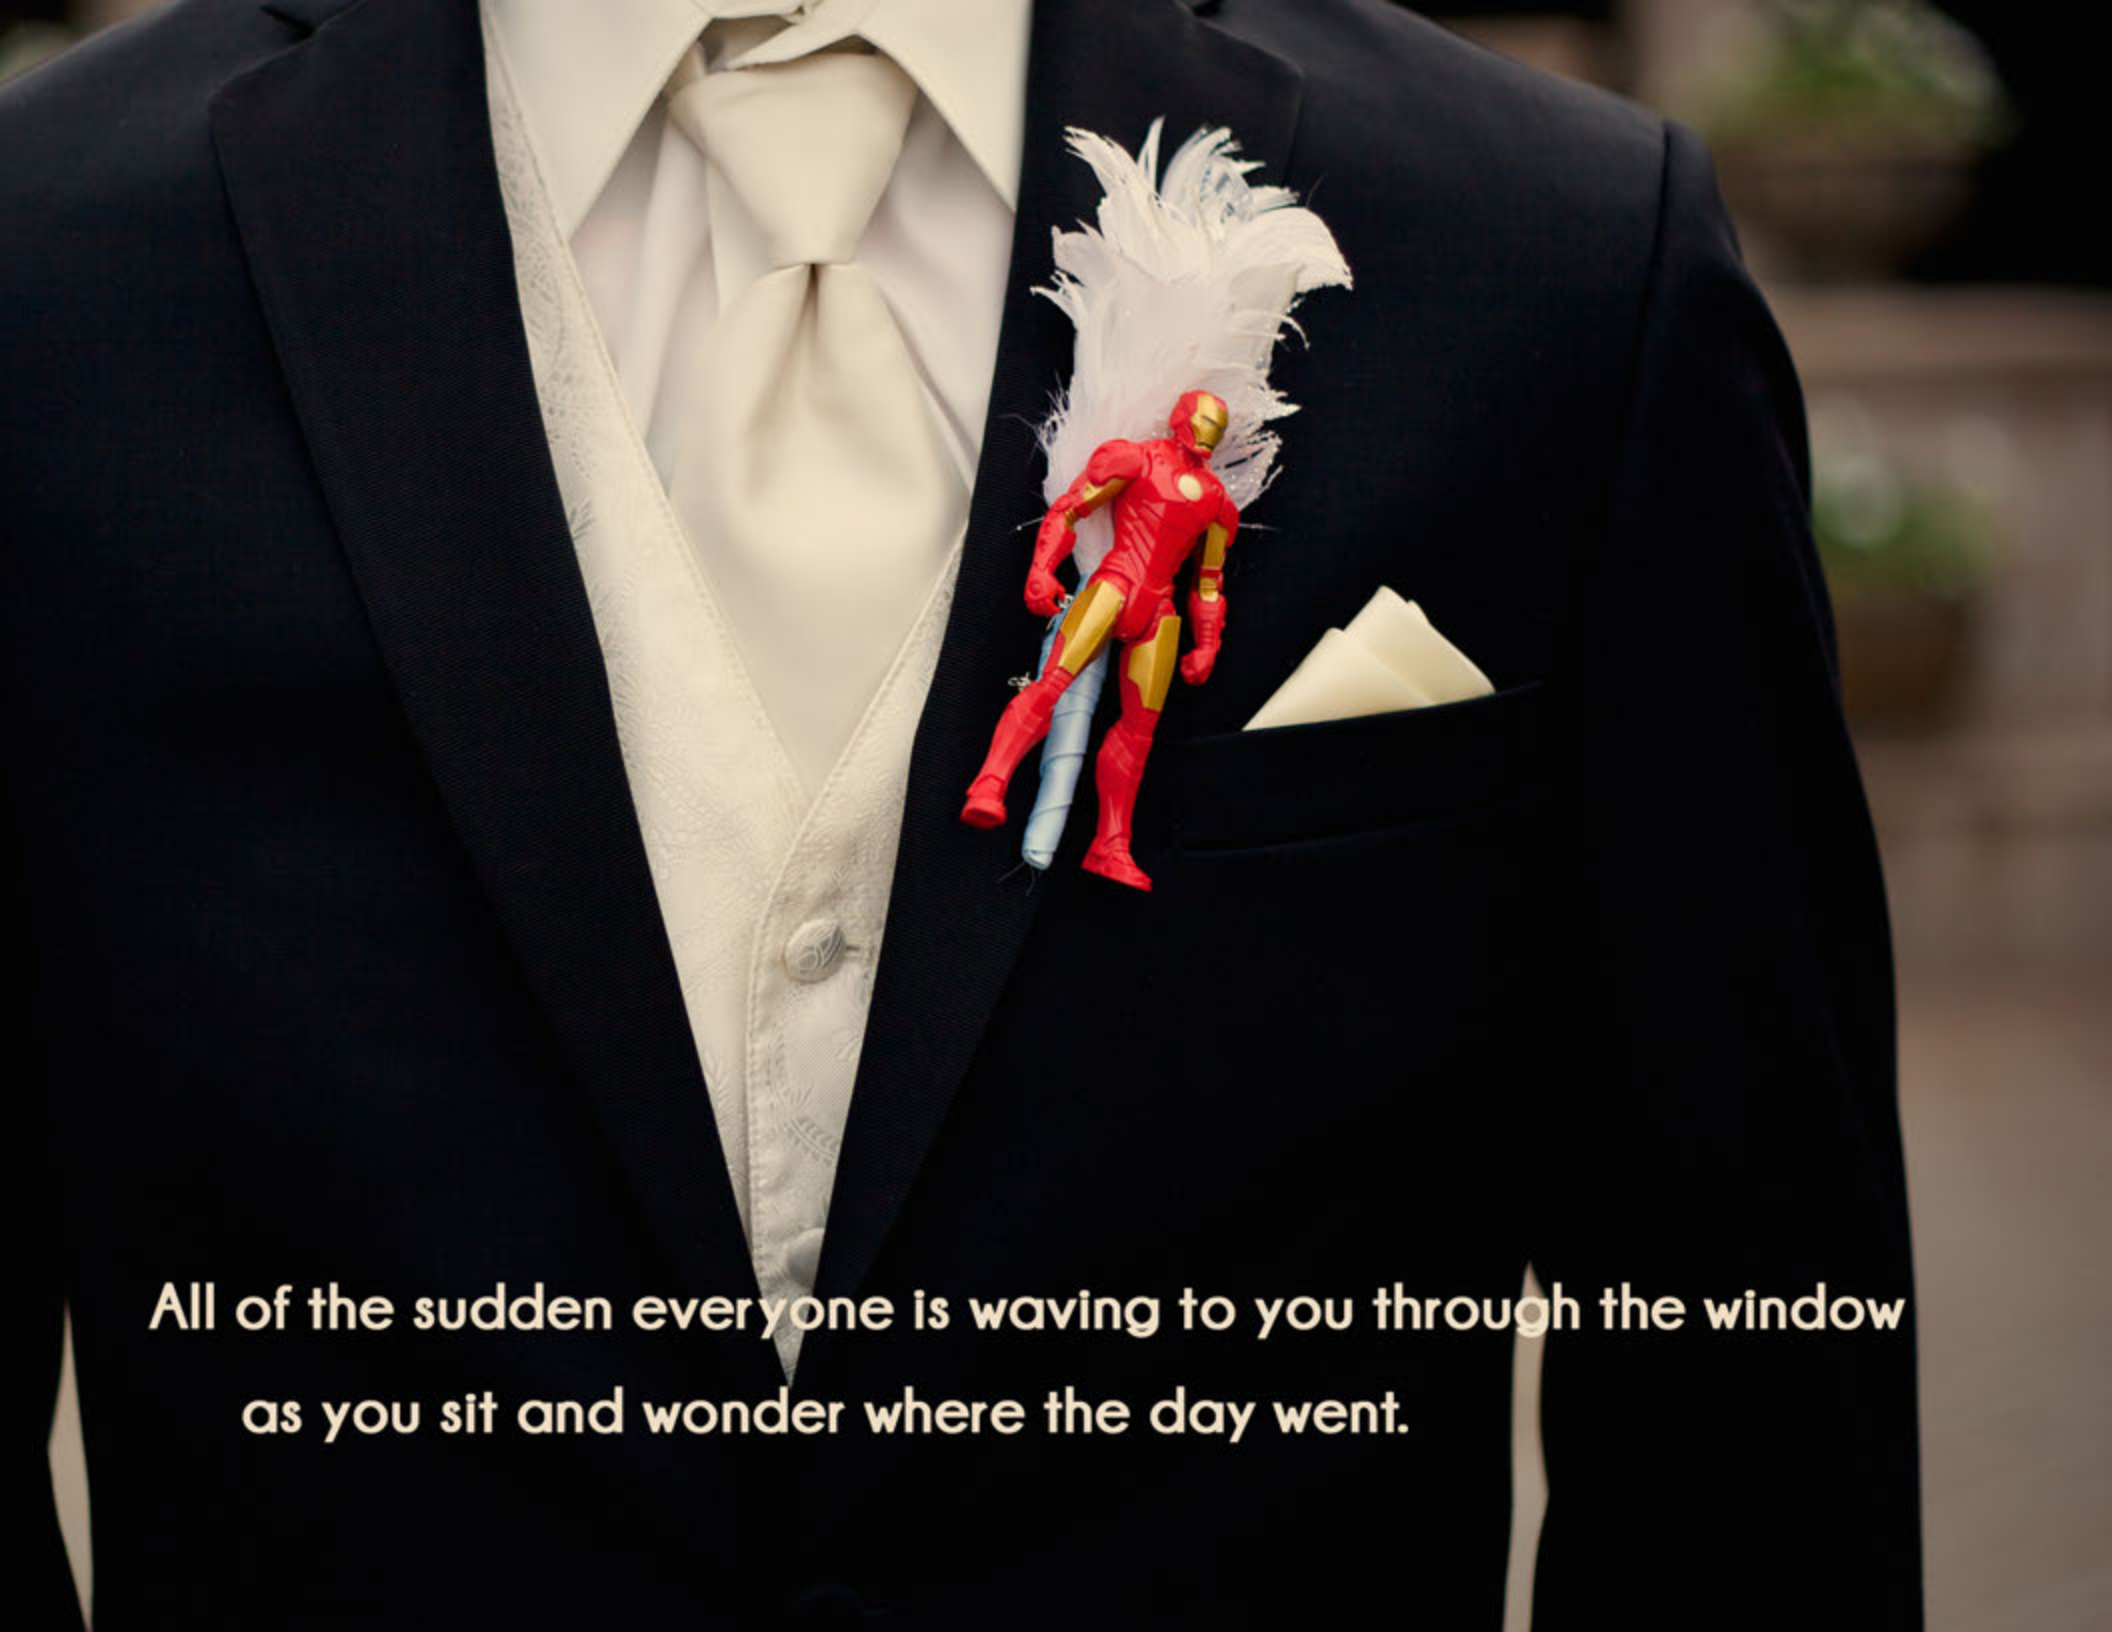

Countless days, weeks, and months  
of planning to make everything perfect.

And then, it sneaks up on you and is over in an instant.

All of the sudden everyone is waving to you through the window  
as you sit and wonder where the day went.

You are left with scattered memories that  
seem to run in fast motion and maybe a  
bit of cake in your hair.

Wedding photos stop time.

They stop a day that you will never get back.  
Because when a moment is gone,  
it is gone forever.

These are not just photographs, they are memories.

Long after we are gone  
history will be remembered through them

Without stories, experiences are just random.

“We live in a world where bad stories are told, stories that teach us life doesn’t mean anything and that humanity has no great purpose. It is a good calling, then, to speak a better story. How brightly a better story shines. How easily the world looks to it in wonder. How grateful we are to hear these stories, and how happy it makes us to repeat them.”

-Donald Miller, *A Million Miles in a Thousand Years*

We can't wait to hear and tell your story.

Let's get together so we can figure out the best way to do that.
